

Project CY 8609

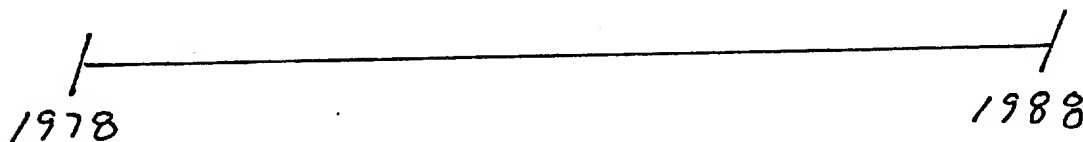

Task

1. Describe the Technical Facility located Vic:

SG1A

2. Within the following ten year period determine if and when any "special events" occur:

* Note: If you do find any "special events" - - - subsequent sessions will be focused on each separate "special event."

absorbed
interest
dedicates
believe in
what they're
doing as far as
they understand
the purpose.

54/k Pt. B has a wide variety of activities of an
admin/bureaucratic/other nature. Some are related, some
are distinct. "like" "format unit" idea for some of the
activities.

Basement
wears it
~~very~~ plain machine

54 1/2 Spent standard heating/cooling etc. Some mass.
Efficiency involved w/ projects above. 3-5 times as
tall as a person. Very complex - tubes, pipes, cable
heat, flux, meters, dials, fail safe, redundant
circuits, steady operation; not fluctuating as it fluctuates
would be disadvantageous to purposes. Human bus 2
sound steady. Person monitoring controller. Watches
dials and makes adjustments in response to order
from elsewhere in bldg. "Basement" not seen to be
under part A at least; instruments passenger
cabins; rooms; ~~offices~~

94/2 passengers/corvins source of contact, but also
 hallway/passenger for people observing/adjusting/unintentionally
 altering/adapting.

Source of
looking down
this passage
a tunnel leading
for a long, long
way, into distant
rounded component,
like a pipe or
rail or tube or
cable

people here waiting for whatever to arrive. They use
equipment, some of it of stainless steel, they saw something &
it, then whatever proceeds on out opposite end

ATC Bc
High
solid
track

By way of Analogy - if this were a submarine, it would have all its hatches closed & locked, periscope retracted, and dead in the water on the bottom while all kinds of activity takes place. During attacks, its like site is "hermetically sealed" to prevent any inking, getting out to outsiders as to a battle taking place.
